(By Associated Press.)

PARIS, Aug. 3.--B. Varazdate, member of the committee of the Armenian social democratic party, writing to Lhumanite, says the committee has received word that the Turks, after massacring the males in the region of Bitlis, in Turkish Armenia, assembled nine thousand women and children and drove them to the banks of the Tigris, where they shot them and threw the bodies into the river. The Armenian population of Cilicia is also subject to persecution, according to reports. More than forty thousand are already dead. It is feared that the Armenians at Mouck and Diarbekera, in Kurdistan, have also been massacred.

GASOLINE FLAME WRAPS A WOMAN

MRS. J. F. BRADY HAS SERIOUS BURNS

RUBBING GARMENTS IN GASOLINE CREATES AN EXPLOSION THAT CAUSES INJURY

Mrs. J. F. Brady was seriously burned by gasoline this morning at 10:30 o'clock at the residence of L. F. Walker, on the corner of McCullough avenue and Prospect street.

Mrs. Brady was cleaning clothes in the back yard and had just completed several pieces. Turning her back to hang them on the line, an explosion occurred which threw the burning gasoline on the lady's back and arms. Her hair, which was down her back, was burned to her shoulders. She screamed and ran into the house with her clothes on fire. Rugs were immediately wrapped around her and the blaze put out.

Mrs. Brady came from Boise, Idaho, three weeks ago to visit her sister, Mrs. L. F. Walker. It was her intention to return about the middle of August.

SUDDEN CHANGE TO ACTIVITY IN THE WEST
Petrograd Reports Sanguinary Fighting on the Banks of the Bug and Vistula Rivers and South of Ostrolenka

(By Associated Press.)

LONDON, Aug. 3.--The silence of the past several weeks as to the situation of the allies at the Dardanelles is broken, an announcement saying that the crest of the ridge on the peninsula has been gained by the British, improving their position, has been received. The situation at Warsaw shows no material change. The German encircling movement continues. Petrograd reports desperate, sanguinary fighting on the banks of Narew, south of Ostrolenka, also between the Vistula and the Bug. Relative inactivity on the western front appears to have undergone a sudden change. An Amsterdam dispatch reports heavy fighting on the British front near Ypres.

CAMPBELL & KELLY TO REBUILD AT ONCE

Tonopah is to be congratulated upon the fact that Messrs. Campbell and Kelly, whose foundry and machine shop were destroyed by fire on last Saturday morning, will rebuild on a more extensive scale than before. A member of the firm, when seen by a Bonanza representative today, stated that as soon as the loss was adjusted, the work of rebuilding would begin. The old cupola will be put in shape for foundry work and a temporary machine shop will be erected at once. As soon as possible a large machine shop equipped with the most modern appliances for construction and repair work will be erected on the site of the old arena. A new and modern foundry will then be built 70 feet away from the machine shop. Before the fire, Campbell & Kelly employed 25 and sometimes 30 men. They will need an even larger force when the new establishment is completed. In addition to the machinery which will be salvaged from the fire, the firm will expend about \$20,000 for building and equipping the new plant. It is expected to have the temporary foundry in operation within six days. It is learned on good authority that Campbell & Kelly on the day of the fire received from another town a most tempting offer to move their establishment there. They have declined to do so after several days' deliberation. They were nearly induced to make this change, so they say, through the action or rather the lack of action of the town trustees, who have given them little or no police protection and absolutely no fire protection. The hydrant from which the water was obtained that was thrown upon the fire Saturday morning was installed as a private enterprise at an expense of \$500. Campbell & Kelly and the West End Consolidated Mining company have or will have, when the new machine shop is constructed, taxable property, assessable at \$112,000, yet from this investment or rather from the taxes paid thereon, about the only attention they receive from the county board, acting as town trustees, is to be arrested for not paying the town licenses, which actually occurred a few days ago. It is a matter of record that the road leading to these two large establishments has to be kept in shape by these corporations aforesaid. Since coming to Tonopah, Campbell & Kelly have paid in taxes, payroll and supplies locally purchased the very considerable sum of \$560,000. An enterprise of such benefit to the community has nearly been driven from the town by the neglect and willful indifference of a so-called town government.

THIS HAPPENED OUT AT CAMP OF VOLCANO

SUPPLY TRUCK BREAKS DOWN AND MINERS PACK THEIR GRUB IN SACKS

Life in a small mining camp is not all a bed of roses, as the following will go to prove. A certain merchant of this city had a large order of merchandise to deliver to an outlying camp and started out to deliver same. Affairs ran smooth as crude oil on a down grade until within four miles of the camp, the differential or transmission gears balked and the owner of the car and his companions walked into camp and notified the residents of the mishap. A council of war was held and it was decided on the spot that each man in camp would have to go out with a sack in order to carry his pro rata share of the goods back to his domicile, a good four miles, and it was a weary but contented bunch of men who arrived in camp long after dark with the necessary supplies and the threatened shortage of grub was happily averted and the boys are now gently warbling that popular ditty, "This is the Life."

PLAN TO RESTORE PEACE IN MEXICO

All the Latin-American Countries To Be Asked To Approve the President's Course

(By Associated Press.)

WASHINGTON, August 3.--When the three South American ambassadors and the three ranking Latin-American ministers meet with Secretary Lansing on Thursday to hear the president's plan to ask the co-operation of their countries for restoring peace in Mexico, a course of action will be outlined which all the Latin-American countries will be asked to approve. It contemplates restoration of a constitutional government without the use of force, if possible, but has in view joint action by all the Americas, if necessary. One of the first elements will be an embargo on arms from all Latin-American countries to Mexico. The president has not committed himself to the details of any plan, but will invite suggestions from the Latin-American diplomats.
